

Yang ikhlas, ibu

A PROJECT BY
SELFLESSTOGETHER

This initiative was launched with the aim of *equipping mothers* in *marginalized communities*, who are frequently perceived as inferior to men, *with new skills*.

The goal is to foster *a sense of accomplishment* and *promote self-reliance* among these women.

Our team is empowering women from marginalized communities by offering skills training workshops. We showcase and sell their handmade items here, providing them with a platform to market their creations. 70% of the proceeds directly benefit these resilient women, while the remaining 30% contributes to the SelflessTogether fund.
